

STEELMASTER SMO-N

Oscillating Diameter and Dimension Measuring Systems
for Cold Processes

- Tubes
- Bars
- Profiles
- Cables
- Plastics, Rubber
- Copper / Alum. Rod
- Metal Products

Outstanding Advantages

- Captures all dimensions around the product
- Displays product cross section
- Shows orientation (angles) of relevant dimensions such as MIN and MAX diameter, height, width, diagonals etc.
- "Magnifier" for exaggerated cross section display
- MIN/MAX tolerance alarm
- For round, rectangular, square, hexagonal or other profiles
